Everything in One

Why does a smaller home have to sacrifice on things when you can have everything you want and need? This is perfect, with two clearly defined living areas, the master suite at the rear of the home, with a massive walk in robe and ensuite. A well designed kitchen with walk in pantry is the hub of the house, with separate areas for your dining and lounge. Large doors leading out to your alfresco bring the outside in and plenty of natural light. The multipurpose room is just that, it could be your media room, work from home office or a fourth bedroom - lots of flexibility means you can make this home suit you.
